

# Home Energy Assistance and Weatherization Assistance Programs

The Home Energy Assistance Program helps low income residents with their heating and cooling bills, and makes provisions for emergency heating system services and emergency fuel assistance within the Home Energy Assistance Program.

The Weatherization Assistance Program enables low income families, particularly the elderly; people with disabilities and children permanently reduce the energy bills and making the homes more energy efficient by using the most advanced technologies and testing protocols available in the industry.

**FREE** if you qualify

A representative from PACO, Inc. will be available to assist you with your application
