Health Department Update- July 2021

1. COVID-19

The Health Department, along with Town Administration, continues to follow proper protocols and regulations issued by County, State, and/or Federal officials during the COVID-19 pandemic. The Health Department office and Town Administration, under guidance of our Health Officer and State and Federal directives, continue to come up with necessary measures in response to the pandemic.

2. Secaucus POD

Now that all vaccines are widely available, the Town vaccine site has seen a drop in registrations for vaccinations. Vaccination clinics are now held once a week and the Town is primarily receiving Pfizer. However, we have permitted walk ins to come to our clinics and have seen a good amount of individuals receive their shots since the last meeting.

3. POD and Town Vaccination Numbers

Below are statistics for vaccinations. The first chart below was compiled for our POD site and the second chart is based on the vaccination Municipality report given by Health Officials.

a. POD vaccinations given since June 21, 2021	245
b. Homebound vaccinations since June 21, 2021	4
Total a and b	249
Cumulative Total POD vaccinations <i>December 2020-July 19,2021</i>	9,257

Note: The numbers above reflect individuals vaccinated overall, is not categorized by a specific group, and includes individuals whom live or work in Secaucus.

Town Vaccinations	Percentage %
Adult Population: People with At Least One Dose	90%
Adult Population: Vaccine Course Completed	83%

Note: The numbers above reflect the adult population in Secaucus 18 years old and above only.
